It is the greatest advance in American defense technology in decades—an attack submarine capable of incredible underwater speeds. There is only one problem: A key element of the prototype is missing—and the man who developed it is dead.

At the same time, ships have started vanishing mid-ocean, and when a few reappear, bodies are found aboard burned to a crisp. Could these mysterious events be connected to an Italian submarine that itself disappeared in 1943?

It is up to NUMA director Dirk Pitt and his team, aided by a beautiful NCIS agent and by Pitt's children, marine engineer Dirk and oceanographer Summer, to go on a desperate international chase to find the truth, from Washington to Mexico, Idaho to Panama.
