Unveiling the Plot

The Navigator Numa Files is centered around the protagonist Kurt Austin, a leader of a special projects division named NUMA (National Underwater and Marine Agency). As Austin embarks on various missions around the globe, he unravels the hidden truths concealed within historical events.

The first book in the series, *Lost City*, delves into a gripping tale set in Honduras. As Austin investigates the sudden disappearance of a fellow NUMA scientist, he stumbles upon a hidden society that claims to possess the key to immortality. As the plot unfolds, Austin must overcome

treacherous obstacles and outwit nefarious villains to prevent them from exploiting this dark secret.

In the second book, *Medusa*, Austin is faced with an alarming crisis as two ships, one from the 19th century and the other from the present day, mysteriously vanish under similar circumstances. Digging deeper, Austin encounters a centuries-old conspiracy aimed at seizing control of

underwater wealth and energy sources. With time running out, Austin must decipher the intricacies of an ancient civilization to save the day.
